SECTION 1        INTRODUCTION
SECTION 2        SECTION 2 – MATTER 2, ISSUE 10
SECTION 1  INTRODUCTION

1.1  Instructions: These representations have been prepared by Leith Planning Limited on behalf of EPC United Kingdom PLC (hereafter referred to as EPC-UK); attention has been focussed on those aspects of the Inspectors Matters, Issues and Questions which impact on the operation of their site at Rough Close Works, Carnfield Hill, South Normanton.

1.2  The Site: EPC-UK has for many years operated as a major hazard site for the manufacture of explosives at their factory at Rough Close Works, Carnfield Hill, South Normanton. The site is located within the boundary of Bolsover District Council, however the consultation zones associated with the operation also fall into the two adjacent authorities of North East Derbyshire and Amber Valley.

1.3  Invitation: Leith Planning Ltd has made representations to each consultation stage of the emerging Local Plan. Given the submission of our previous objections to the Plan, we are grateful to have been invited by the Planning Inspector to attend the Local Plan Examination.

1.4  Statement Content: This statement will briefly deal with the relevant Matters, Issues and Questions raised by the Inspector for Matter 2, Issue 10, as they relate to the ongoing use of our clients’ site at Rough Close Works, Carnfield Hill, and its long term protection from inappropriate development which may encroach on to the site and affect its long term viability.

1.5  Statement of Common Ground: Whilst we have drafted responses to the questions set by the Planning Inspector as set out below, we can confirm that after extensive negotiations with the officers at Bolsover Local Plan, our previous objections have now been addressed by the Council. This has been confirmed and agreed within the signed Statement of Common Ground which has been submitted to the Inspector by the Council, and sets out the agreed Plan modifications which have our support. We are now therefore in a position to withdraw our objections to the Plan and will not be attending the Local Plan Hearing Session for Matter 2, Issue 10.
SECTION 2  MATTER 2, ISSUE 10

DRAFT POLICY ITCR2

2.1 In preparing this Hearing Statement due regard has been paid to the content of our earlier representations, and more specifically the Inspector’s Schedule of Matters, Issues and Questions with particular attention being made to the following, namely:

“Q184. Has the impact of the inclusion of Multi-User Trails within the Consultation Zones for the Rough Close Works been fully considered in respect of the risk to public safety? [Policy ITCR2]"

2.2 Comment: As set out at Section 1, throughout the preparation of the Bolsover Local Plan Leith Planning, EPC-UK and the officers at Bolsover Council have sought to work closely together to secure an appropriate planning policy framework in relation to the site known as Rough Close Works, Carnfield Hill. This has concluded with the preparation and signing of an agreed Statement of Common Ground, which confirms that the Council are now deleting the proposed new multi-user trails within the consultation zones associated with Rough Close Works. This Modification to the Plan addresses our previous objections and concerns and will protect public safety.

2.3 We can therefore confirm that the deletion of the multi-user trails within the consultation zones associated with Rough Close Works, as set out within the signed Statement of Common Ground satisfactorily addresses our concerns and comments in relation to proposed policy ITCR2.
